*Note: The total file size of 142 MB sounds like a lot to download, but you should keep in mind that this total includes 344 comprehensive Excel tutorials. Our video format is unique and the file size is more than 90% smaller than the standard video format, for example the download size of any standard video of 5 minutes could be up to 10 MB. With our video format, you'd be able to view 67 minutes of tutorials before downloading 10 MB.*

*Our unique video format therefore enables us to provide a lot more content for what you are downloading. We guarantee that you will not find any other Excel training resource that includes this much content. In addition, some of the features that are covered in our tutorials are not even mentioned in standard Excel courses because the tutorials on these features are based on years of practical experience spent working in Excel!*
